PLEASE MAIL BACK THIS PORTION WITH YOUR PAYMENT.

TREE DESCRIPTIONS:

EVERGREENS:

EASTERN WHITE PINE,(Pinus Strobus) Mature height 50-100'. Prefers moderate to well drained soils. Fast growing and shade tolerant. Used for ornamental, Christmas trees, windbreaks, and reforestation purposes. Long soft bluish green needles.

NORTHERN WHITE CEDAR,(Thuja Occidentalis) Also known as American Arborvitae. Dense flat green pyramidal trees. Featherlike yellowish-green needles with blunt tips. Grows from swamps to upland limestone to lake and stream banks. Medium growth rate to 30-60'. Used for windbreaks, hedges, wildlife habitat, fence poles, lumber and as an accent plant.

DECIDUOUS SEEDLINGS:

NORTHERN RED OAK,(Quercus rubra) Large tree with reddish fall color. Excellent for wildlife. Fast growing 60 – 75' preferring moist to dry soils and full sun. Excellent wildlife planting.

SUGAR MAPLE,(Acer Saccharum) Native to northeastern U.S. Does not do well in wet areas. Fast growing but hardy. Bright fall colors. Mature height 65'. Mature trees provide sugar products from sap in the spring.

FLOWERING SHRUBS:

COMMON LILAC,(Syringa vulgaris) Moderate growing shrub with fragrant lavender blossoms that bloom in late spring. Attractive Emerald green foliage all season. Mature height 10-15'. Plant 6-10' apart.

JAVA RED WEIGELIA, (Foliis Purpureis) COLOR-Java Red. Mature height 4-6'. Spreads 4-5'/spacing 3-4'. Medium growth rate widely adaptable to different soil moisture and soil types. Requires full to partial sun. Java Red is one of the oldest weigelas. Being a dwarf shrub, it is an excellent landscape choice. Flowers are lavender to deep pink. The foliage is deep green with an overcast of purplish-red. Bloom time: Late spring/early summer.

NATIVE PLANTS AND GRASSES

BUTTERFLY WEED,(Asclepias Tuberosa) COLOR-Orange. Full sun, dry to medium soil moisture. Grows in sand and loam soils. Will reach height of 1-2', blooms June-August. King of the milkweeds. Striking wildflower with brilliant orange flowers.

CARDINAL FLOWER,(Lobelia cardinalis) COLOR-Red. Full sun to partial shade. Prefers moist to wet soils. Brilliant red flowers along tall spikes appear in August and September. Excellent for attracting hummingbirds. Grows 1-3'.

FALSE BLUE INDIGO,(Baptisia australis) COLOR: Blue. Full to partial sun. Medium soil moisture. Grows in sand, loam, and clay soils. Height 2-4'. Blooms May - June. Clusters of blue flowers cover this deep rooted, very long -lived plant. The lush blue-green foliage is reason enough to grow this plant.

MARSH MILKWEED,(Asclepias incarnata) COLOR-Pink. Full sun in moist soils. Clusters of bright pink flowers appear in July and August. Excellent for adding color to difficult wet areas. 3-4' in height. The delicately fragrant flowers are extremely attractive to Monarch Butterflies.

BIG BLUESTEM,(Andropogon gerardii) COLOR-Reddish Brown. Full sun and any soil type. Reaches a height of 5-8'. The branched seed heads, resembling a turkey's foot appear in July and August. The lush foliage turns a rich reddish brown in fall, slowly fading through the winter.

PRAIRIE DROPSEED,(Sporobolus Heterolepis) COLOR-Gold fall color. Full sun and dry to medium soil moisture. Grows in sand and loam soils. Height of 1-2', blooms August-September. Magnificent fountain of emerald green leaves adds a touch of elegance to almost any planting. Showy seed heads and golden fall color.

PLANT TREES, NATIVE GRASSES & PLANTS THIS SPRING !!!

HOWARD COUNTY SWCD TREE & PLANT SALE 2018

Please understand that we are not in the nursery or landscaping business. Our nature of business is focusing on natural resource problems and concerns.

Our programs are funded through county and state appropriations, moneymaking activities and grants. Funds received through the tree sale are used to further our education programs for both adults and youth. We thank you for your continued support of the SWCD Tree Sale Program!

Additional Services Offered by the Howard County SWCD Include:

- Technical assistance for conservation practices (i.e. grassed waterways, filter strips, etc.)
- Conservation planning assistance (Whole Farm conservation planning)
- Rule 5 plan reviews and on-site inspections.
- Information on soils, ponds, trees, grasses etc. (Pond and grass packets available in office)
- Plat Books and Marking Flags for sale. (Plat Books - \$20.00, Flags - \$8.00)
- 10' Brillion Seeder rental. (Rental Agreement: \$50/year and first 4 acres are included. \$12.00/ acre after the first 4).
- Bluebird boxes pre-built and kits (Limited supply available)

Technical Assistance for Conservation Practices

The Howard County SWCD works with a unique partnership installing conservation on the land to improve the county's natural resources. This partnership includes the Natural Resources Conservation Service (NRCS) and the Indiana State Department of Agriculture (ISDA), Division of Soil Conservation. Some of the practices installed are: Grassed Waterways, Filter Strips, Tree Plantings, Riparian Buffers, and Grade Stabilization Structures. For additional information, contact the office at 765-457-2114 ext. 3

CURRENT SUPERVISORS AND STAFF MEMBERS
